

**AN INTELLECTUAL
SPACE FOR
GENDER
JUSTICE,
SOCIAL
DEVELOPMENT &
CULTURAL
GROWTH.**

**DAYAPURAM ARTS & SCIENCE
COLLEGE FOR WOMEN**

FOUNDATION

Dayapuram College lives for social justice, communal harmony and new education, the foundational concerns of Dayapuram, by focusing on establishing an intellectual space for women's empowerment. The college community believes in creating an enabling and encouraging atmosphere for academic explorations and cultural enrichment in a socially sensitive, mutually accountable and ethically consistent manner.

Built on the legacy of the parallel college, Dayapuram Vanitha College (1988-2008) for streamlining many a poor and backward girl into higher education through dedicated basic skill building, Dayapuram Arts and Science College for Women (Affiliated to the University of Calicut) was established in 2002. The college is managed by a set of academic volunteers of premier educational institutions from different parts of the country, guided by Dayapuram's patron, CT Abdurahim and Al Islam Charitable President Dr. MM Basheer, and conceptualized and organized by Dr. NP Ashley, the volunteer in-charge of the college. After Dr. PG Sabu, Dr. Sreevidhya NT has taken over has the Principal of the college from 29th May 2020.

PERSPECTIVE

University is often understood to be the space for an unending conversation: though a set of people begin the conversation, people from the group keep moving out but the new ones keep coming in and continue the conversation. Conversation is an act and art of losing a bit of oneself and gaining a bit of the other. At the college level, when students choose a subject for the first time, they are trained in the ways of their subject and given a set of skills to work with the world.

Dayapuram College, attempts to facilitate a series of conversations with students' chosen area of specialization (the extension lecture series, AMALGAM), orient them in higher education and career choices (the add-on course, PRISM), give a sense of leading educational institutions of the country through training and interaction (extension lectures and EDUCATIONAL CONCLAVE) and provide opportunity to meet noted scholars of the country (SCHOLARS OF EMINENCE series). The college also facilitates visits for student and faculty representatives to visit premier centres of higher education to see and benefit from different models of education.

SPACES

Dayapuram College believes that a learning environment which is natural, artistic, interpersonal, digitally savvy and academically dense is central to the overall growth of a college community.

The college has floated the idea of a RESIDENTIAL COLLEGE, wherein hostel students have additional activities through clubs and tutors to mentor them in their subjects as well as in their overall growth. The hostel has a dedicated library, indoor and outdoor game areas, and common rooms for students as well as faculty. Literature, film, cooking, gardening and craft get special attention and venues through such student-run clubs.

The new library, enriched by both acquisitions and donations, along with open spaces for student-faculty interactions also contribute to creating the ambience.

PARTICIPATION

Dayapuram College believes in evolving its college-ing model in a consultative and participative manner. Student Union (elected body in charge of college cultural and social activities), Student Council (a body with student representatives from each discipline of all three years), Student Faculty Academic Committee of Departments Head's Council (with all heads of departments as members), Faculty Council (with all faculty members as members), College Development Council (with student, faculty, non-teaching staff, volunteers and Managing Committee representatives as members) and College Managing Committee are the bodies introduced for this purpose.

Student participation in curricular and extra-curricular activities is hugely encouraged and these will be mentored through faculty in-charges. The college has a transparent evaluation mechanism in which all stake holders get to evaluate everybody else. This process ensures justice, accountability, dignity, mutual respect, sensitivity, and cultivation of high work ethic and academic standards.

COURSES OFFERED

UNDER GRADUATE

- B. Sc. Physics with Computer Applications and Mathematics (39 Seats)
- B. Com with Computer Applications (60 Seats)
